Personal Statement

My name is Yordan Hristov, a BSc(Hons) Web Development graduate from Falmouth University. I specialize in front-end web development and design, with a strong focus on creating visually appealing and user-friendly interfaces. Additionally, I have experience and skills in back-end development, allowing me to build robust and functional websites with seamless integration of server-side functionality.

Key Skills

- HTML
- CSS
- JavaScript
- PHP
- React
- Next.js
- Gatsby
- Express.js
- Laravel
- Web Design
- Git (Version Control)
- Agile Workflow

Work Experience

Studio 316 - December 2022 - Jun 2023

- Position: Frontend Developer
- Worked as a subcontractor for Studio 316 (studio316.co.uk) on one of their projects "Hexton Hills Map Creator". My work involved adding a number of different features to the web application, such as undo/redo system, tile lock, total count of tiles and more.

Projects

Albor (albor.dantcho.com)

- A social media platform targeted at photographers built with React and Laravel. Featuring user authentication, post feed, high resolution image upload functionality, gamification (user levels and unlocks) and much more.

Personal Website (www.dantcho.com)

- My personal website built with React. Featuring a custom-made design, a projects section and a blog.

GameR8 (www.gamer8.net)

- A game rating website built with React. Featuring search functionality, a rating system, reviews and galleries showcasing different games.

Client Personal Website (www.georgialeksandrov.com)

- A personal website system with an easy-to-use control panel built with Next.js & Strapi. Featuring a custom-made design, sophisticated projects gallery system and a blog system.

Education History

Falmouth University (Graduated)

- BSc(Hons) Web Development – September 2020 to June 2023

Hatless Talent Training (Completed)

- Business Readiness
- Fast Track Development Project
- Frontend Development

South & City College Birmingham

- Computer Science and Cyber Security - September 2018 to June 2020

Hobbies

During my free time, I actively stay updated on the latest web technologies while simultaneously dedicating myself to one of my personal projects. In addition to my computer-related pursuits, I also indulge in staying physically active and have recently developed a keen interest in the art of photography.
